

SPM-S-TG

# SPM-S TG 1200

Nominal diameter

**DN 1200**

## Dimensions and installation

|             |              |
|-------------|--------------|
| Model code  | SPM-S-TG1200 |
| Weight [kg] | 252          |

## Performance and construction

|                              |                                 |
|------------------------------|---------------------------------|
| Pressure [mH <sub>2</sub> O] | 6                               |
| Revs open [-]                | 200                             |
| Thread pitch [mm]            | 6                               |
| Closing torque [Nm]          | 77                              |
| Opening torque [Nm]          | 154                             |
| Operating Temperature        | -25° C - +40° C                 |
| Watertightness               | DIN 19569-4 table no. 1 class 5 |
| Frame                        | EN 1.4404 AND HDPE              |
| Sliding Plate                | EN 1.4404                       |
| Sealing against gate         | EPDM                            |
| Seal against wall            | EPDM Foamseal                   |
| Spindle                      | EN 1.4462                       |
| Spindle Nut                  | CuSn12                          |

## PRODUCT VARIANTS

|                                              |            |
|----------------------------------------------|------------|
| Art. No                                      | V820761200 |
| Carbon footprint [kg CO <sub>2</sub> e/unit] | 1477.3     |
